### **INTERNATIONAL SEARCH REPORT**

Box II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)	
This International Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:	
Claims Nos.:     because they relate to subject matter not required to be searched by this Authority, namely:	
Claims Nos.: because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:	
3. Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).	
Box III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)	
This International Searching Authority found multiple inventions in this International application, as follows:	
see additional sheet	
· · · · · · · · · · · · · · · · · · ·	
1. As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.	
As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.	
3. As only some of the required additional search fees were timely paid by the applicant, this International Search Report covers only those claims for which fees were paid, specifically claims Nos.:	
4. No required additional search fees were timely paid by the applicant. Consequently, this International Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:	
Remark on Protest  The additional search fees were accompanied by the applicant's protest.  X  No protest accompanied the payment of additional search fees.	

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. claims: 1-46, 54-87

packaging means for retaining vapour active pyrethroids, as well as the method of emanating a vapour active pyrethroid into the atmosphere and the use of a packaging means

2. claims: 47-53

cellulosic based substrate

3. claims: 88-96

indicator for indicating the end of life of a packaging means

### INTERNATIONAL SEARCH REPORT

International application No.

PCT/GB2004/004369

Box No. IV Text of the abstract (Continuation of item 5 of the first sheet)

The invention provides a packaging means for retaining vapour active pyrethroids comprising a holder and a cellulosic based substrate or matrix (5) impregnated and/or dosed with the vapour active pyrethroid, wherein the holder comprises a top (1), a base (3) and a longitudinal member (11) vertically extending from between the top (1) and base (3), and wherein the cellulosic matrix (5) has a honeycomb configuration adapted to be retained between the top and base and has a surface area so as to achieve sufficient emanation of the vapour active pyrethroid to control flying insects. The invention also provides methods of emanating vapour active pyrethroids and the use of packaging means according to the invention for retaining and emanating vapour active pyrethroids.
